Successive year's support cost will be \$500 the 2nd year, with 5% per year increases after that.

* * * * *

Possible Options:

If you want to reach customers through social media,
I suggest you also add this **\$150 / year** pair of options: *(Only Available with Basic Plus Site)*

a. Social Media Manager

This option gives you **Facebook**, **Twitter**, and **Yelp** pages with the same look as your website. And anytime the website is changed or upgraded, your social media pages will automatically update so they always match your website.

b. Search Engine Optimization (SEO)

This option will get your site ranked higher on search engines. Using effective keywords, headlines, and body text based on your business and target customers, your site will be submitted to all the major search engines, like Google, Bing, and Yahoo, ranking you higher, quicker.

All prices are plus 8.25% tax
